

RESTON

A NEW TOWN

This is the story of the innovative and world-renowned planned community of Reston, Virginia.

In 2002 The American Institute of Certified Planners (AICP) presented Reston with its Landmark Award, and Robert E. Simon, Jr. received its Planning Pioneer Award.

With the AICP Landmark designation, Reston joined honorees that have made a significant impact on planning in the United States such as Central Park in New York City, L'Enfant's original plan for Washington, DC, and the River Walk in San Antonio, Texas.
